## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 103***

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim 1 stands rejected under 35 U.S.C. 103(a) as being unpatentable over Sportouch in view of Shen of record for reasons of record.

Claims 2-4 stand rejected under 35 U.S.C. 103(a) as being unpatentable over Sportouch in view of Shen as applied to claim above, and further in view of Hohl of record for reasons of record.

Claim 17 stands rejected under 35 U.S.C. 103(a) as being unpatentable over Sportouch in view of Shen as applied to claim 1 above, and further in view of Bell of record for reasons of record.

### ***Response to Arguments***

Applicant's arguments filed 4/14/08 have been fully considered but they are not persuasive.

Applicants argue that the Shen process only processed the powder by a solid state reaction and is not melted. However, the reference teaches that the powder was sintered (see page 166, second column) one of the same type of processes claimed.

Applicants state that the reference would not produce an alloy, because the powders are not melted. However, the sintering technique used by application also would not melt the powders, since by definition, sintering would form a coherent mass

without melting (definition given in the Merriam Webster's Collegiate Dictionary tenth edition).

Accordingly, since the Shen reference teaches the same technique used to form thermoelectric compounds, the properties of the formed product would inherently have the same dimensions as claimed, absent some showing of comparative results.

Consequently, the claims are rejected.

***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
